

# FEEDING THE MICROBIOTA

6<sup>th</sup> Symposium GE-VD

**Thursday, February 11<sup>th</sup> 2021, 13:00-17:15**

Auditoire Marcel Jenny, Geneva University Hospitals (HUG), Geneva

# Microbiota, obesity and obesity-associated diseases

---

## Context

Recent studies suggest that the gut microbiota plays a key role in the appearance of the metabolic syndrome and its associated features.

A better understanding of the interactions between nutrition and gut microbiota could open up new therapeutic options for chronic diseases associated with the metabolic syndrome.

## Aims

To create a group of physicians/scientists/health professionals /industrials interested by the nutritional modulation of microbiota and its impact on energy metabolism.

## Public

Professionals (physicians, scientists, dieticians, nurses, pharmacists...)

## Language

All presentations will be in English.

## Organisers

Laurence Genton, Jacques Schrenzel

## Scientific committee

G. Greub, F. Pralong

# Program

## February 11<sup>th</sup> 2021

---

**13:00 Welcome**  
Laurence Genton, Geneva

*Moderators: François Jornayvaz, Marie Reinmann*

**13:10 Introduction**  
Arnaud Perrier, University Hospitals of Geneva

**13:15 Link between gut microbiota and diabetes**  
Prof. Pierre Maechler, Faculty of Medicine of Geneva

**13:30 Personalized nutrition through gut microbiota analysis**  
Prof. Eran Segal, Rehovot, Israel

*Moderators: François Mach, Marie-Céline Zanella Terrier*

**14:00 Human microbiota and drug metabolism**  
Michael Zimmermann, EMBL Heidelberg, Germany

**14:15 Microbiota and energy metabolism**  
Nathalie Delzenne, Louvain, Belgium

**14:45 Gut microbiota: key role in heart failure?**  
Philippe Meyer, University Hospitals of Geneva

**15:00 Pause**

*Moderators: Tinh-Hai Collet, Zoltan Pataky*

**15:30 Fasting and gut microbiota**  
Christoph Thaiss, Philadelphia, USA (by videoconference)

**16:00 Microbiota and physical exercise**  
Stéphane Bermon, World Athletics Health and Science  
Department, Monaco

**16:15 Microbiota and insulin sensitivity**  
Max Nieuwdorp, Amsterdam, The Netherlands

*Moderators: Jacques Schrenzel, Laurence Genton*

**16:45 Best attendees awards - Competition**

**17:00 Conclusion followed by aperitif**

# Practical informations

---

## Venue

Auditoire Marcel Jenny – Geneva University Hospitals (HUG)  
Principal entry, Floor 0, Rue Gabrielle-Perret-Gentil 4, 1205 Genève

## Access

From the train station of Geneva: bus 1 or 5, station “Hôpital”  
From the airport or train station of Geneva airport: bus 5, station “Hôpital”

## Registration and information

Free but mandatory Registration on ➔ <http://nutrition-microbiota.org>  
For further informations please contact [microbiota.nutrition@hcuge.ch](mailto:microbiota.nutrition@hcuge.ch),  
☎ 022 372 93 49

## Post-gradual credits

Support of the SSNC/GESKES  
ASDD/SVDE

Internal medicine, general medicine, gastro-enterology, infectious diseases,  
microbiology, endocrinology, diabetology, geriatrics, FPH (to be requested)
